Problem 1: miks salat (20 marks)

Below is a salad of words and short phrases in Naijá[1] (Nigerian Pidgin English) and their counterparts in Tok Pisin[2] (Papua New Guinea Pidgin English). However, the salad bowl fell off the table, and now everything is somehow even more mixed up.

Naijá/Tok Pisin

1	**kis**	10	**small pikin**	19	**pikinini man**
2	**man pikin**	11	**bad belle**	20	**tingting paul**
3	**skata brain**	12	**eye glass**	21	**liklik kaikai**
4	**gat bel**	13	**carry belle**	22	**hau bodi**
5	**yu stap gut**	14	**liklik pikinini**	23	**chop maut**
6	**hamas**	15	**lusim tingting**	24	**kolim bel**
7	**kul tempa**	16	**hau moch**	25	**bel nogut**
8	**windo bilong fes**	17	**small chop**	26	**chop bullet**
9	**em kisim sut**	18	**komot mind**		

English

27	get (a) shot/injection	32	confused	37	spectacles
28	baby	33	pacify/calm down	38	son
29	appetizers	34	forget	39	pregnant
30	hateful	35	kiss (*noun*)		
31	how are you?	36	how much (money)?		

[1] Naijá, also known as Nigerian Pidgin, is an English-based creole spoken throughout Nigeria. It developed during the 17th and 18th centuries, when West Africans and English traders/colonies needed a common means of communication. Over time, it grew into a vibrant everyday language with millions of speakers, its own slang, and a lively media presence. Naijá combines English vocabulary with patterns and expressions from various Nigerian languages: Yoruba, Igbo, Edo, Hausa, and others, giving it a distinctive rhythm and flavour.

[2] Despite being half a world away, Tok Pisin emerged from a similar history and thus shares similarities with Naijá. It developed in the 1800s in the Pacific, when people from many different islands worked together on plantations and needed a shared language. Like Naijá, Tok Pisin is primarily based on English words. Still, its grammar and expressions are derived from the numerous local languages of Papua New Guinea. Today, it is one of the country's official languages and is spoken by millions of people.

Assignment 1 (14 marks)

Your first task is to determine which ones belong together and then match each pair to its corresponding English meaning (answer in index triples, arranged in the order Naijá-Tok Pisin-English, e.g. if you think "**101. miks**" is a Naijá word that corresponds to "**213. salat**" that is a Tok Pisin word and both mean "**72. mess**" in English, then your answer would be **101-213-72**).
Hint: Both Naijá and Tok Pisin evolved from English contact in multilingual communities; they often resemble distant cousins, sharing simple spellings, short compound words, and a love of expressive metaphors, particularly those involving body parts. At the same time, each language has its own personality and its own way of building meanings.

Assignment 2 (6 marks)

Translate the following:

(a) **get** (English → Tok Pisin)

(b) **chop knuckle** (Naijá → English)

(c) **gras bilong ai** (Tok Pisin → English)

– Mukund Choudhary

Assignment 1 (14 marks)

Problem 2: Blagar (10 marks)

In the Blagar language, spoken by 10,000 people in Indonesia, many verbs of motion are used to describe coming and going between different parts of Pura island. Here is a map of the island and a location of 8 villages, with two of them labeled. The names of other villages on the island are Abira, Dolap, Harilolong, Limarahing, Malaal, and Puravematang.

Here are the verbs used for coming and going between some of villages:

Going from	Limarahing to Melangvala	**ipa**
	Melangvala to Reta	**ipa**
	Harilolong to Limarahing	**ipa**
	Dolap to Puravematang	**mida**
	Melangvala to Limarahing	**mida**
	Puravemetang to Melangvala	**mida**
Coming from	Abira to Limarahing	**da**
	Malaal to Dolap	**da**
	Reta to Dolap	**da**
	Malaal to Puravemetang	**ja**
	Malaal to Reta	**ja**
	Puravematang to Dolap	**ja**

Assignment 1 (6 marks)

Write the names of villages 1–6.

Assignment 2 (2 marks)

For going from Abira to Reta, some people say **mida** and some say **ipa**. For those that say **ipa**, which one of the two villages do they pass through on their way to Reta: Harilolong or Melangvala?

Observe the following verbs for coming and going between the villages on Pura and places on other islands in Indonesia (Makassar and Maluku):

Going from	Melangvala to Makassar	**ipa**
	Maluku to Harilolong	**ipa**
	Makassar to Abira	**mida**
	Limarahing to Maluku	**mida**
Coming from	Malaal to Maluku	**da**
	Reta to Makassar	**ja**

Assignment 3 (2 marks)

What are the motion verbs for the following:

(a) Coming from Maluku to Dolap

(b) Coming from Makassar to Puravemetang

– Deeraj Pothapragada

Problem 3: Mongolian (20 marks)

Below are some phone numbers, and their Khalkha Mongolian[3] equivalents when read out loud in arbitrary order:

1.	**naya dal tavin gurav döčin tav**	A.	*99203916*
2.	**nayan gurav tavin naim yeren tav arav**	B.	*94618324*
3.	**nayan tav arvan yes döčin zurgaa dalan gurav**	C.	*91282187*
4.	**nayan zurgaa teg yes xorin döröv guč**	D.	*90774062*
5.	**yer dalan doloo döč žaran xoyor**	E.	*86092430*
6.	**yeren döröv žaran neg nayan gurav xorin döröv**	F.	*85194673*
7.	**yeren neg xorin naim xorin neg nayan doloo**	G.	*83589510*
8.	**yeren yes xor' gučin yes arvan zurgaa**	H.	*80705345*

Assignment 1 (4 marks)

Determine the correct correspondences.

Assignment 2 (7 marks)

When saying the numbers out loud there are three pauses. For example, (a) would be read like "**naya PAUSE dal PAUSE tavin gurav PAUSE döčin neg**". For the following numbers below in your answer sheet, put "|" where the pauses should go.

b. **nayan gurav tavin naim yeren tav arav**

c. **nayan tav arvan yes döčin zurgaa dalan gurav**

d. **nayan zurgaa teg yes xorin döröv guč**

e. **yer dalan doloo döč žaran xoyor**

f. **yeren döröv žaran neg nayan gurav xorin döröv**

g. **yeren neg xorin naim xorin neg nayan doloo**

h. **yeren yes xor' gučin yes arvan zurgaa**

Assignment 3 (5 marks)

Write the following phone numbers in digits:

(a) **yeren tav teg xoyor nayan doloo arvan doloo**

(b) **naya tavin zurgaa yeren doloo teg teg**

[3] ö is a vowel. č and ž are pronounced like ch and j respectively. ' after a consonant indicates that it is pronounced close to the palate. Khalkha Mongolian is spoken by around 3 million people.

(c) **žaran zurgaa tav' gučin naim dalan yes**

Assignment 4 (4 marks)

Explain how to read phone numbers aloud in Mongolian, including when to pause.

– Deeraj Pothapragada

Problem 4: Karuk (20 marks)

Here are some words in Karuk and their translations in English, in arbitrary order:

1.	**achiptik**	A.	*black*
2.	**ahtaknih**	B.	*car*
3.	**ahyup**	C.	*cougar*
4.	**axakinivkih**	D.	*deer excrement*
5.	**axakitrahyar**	E.	*eight*
6.	**axaktikih**	F.	*eyebrow*
7.	**axha**	G.	*middle finger*
8.	**axkunish**	H.	*midnight*
9.	**ikxaramkunish**	I.	*red*
10.	**ikxaram'achip**	J.	*seven*
11.	**ip'af**	K.	*red deer*
12.	**ip'axkunish**	L.	*ring finger*
13.	**kuyrakinivkih**	M.	*to bleed*
14.	**pithvayupha**	N.	*to have a spot over each eye*
15.	**uh'af**	O.	*tobacco tar*
16.	**yupipih**	P.	*twenty*
17.	**yupthukirar**	Q.	*wildcat*

Assignment 1 (9 marks)

Match between 1-17 and A-Q, knowing that **ahpah** means "*steamship*".

Assignment 2 (3 marks)

Translate to Karuk: *night, tobacco, wheel*

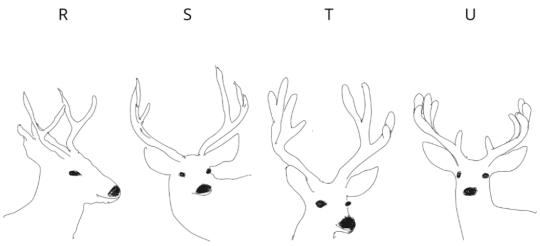

Assignment 3 (3 marks)

Translate to English: **thukinkunish, yup, ah**

Assignment 4 (5 marks)

Match between the following words in Karuk and the types of deer they describe among R-U:

18. **axaktak**
19. **itroopa'ahar**
20. **kuyraktak**
21. **pithvathip**

Tobacco tar refers to specifically the sticky, resinous substance produced when tobacco is burned. Wildcats are closely related to domestic cats and are known for their vertical yellow eyes. Panthers, also known as cougars, are related cats known for their round green eyes.

An apostrophe represents the sound in the middle of uh-oh. The Karuk language has tone and vowel length distinctions, which were not shown in this problem for simplicity.

Karuk or Ararahih'uripih is the traditional language of the Karuk people in the region surrounding the Klamath River, in Northwestern California, USA. It is spoken by 12 native speakers, and is undergoing a revival.

– Animikha Dutta Dhar

Problem 5: Dhivehi (30 marks)

Given below are some sentences in English:

1. I take your chair.
2. The friend accidentally asks the bird.
3. Your child starts (with) the coconut.
4. I will accidentally start the white fire.
5. The fire takes the tasty coconut.
6. You will drop the small child.
7. The child accidentally takes the chair.
8. The donkey will accidentally drop the banana.
9. The bird's friend will ask me.
10. The white banana will start the fire.
11. I will hit the donkey.
12. The friend's bird will look at the fire.
13. The child looks at the tasty coconut.
14. The donkey accidentally hits the small chair.
15. The white coconut accidentally hits the chair.
16. You accidentally ask the friend.
17. The bird will accidentally drop the tasty banana.
18. The donkey accidentally looks at the small banana.

And here are their translations into Dhivehi, in arbitrary order:

A. **Aharen himāru jahānan.**
B. **Aharena' hudu alifān feṣēne.**
C. **Hudu kāṭṭa' goṇḍi jehē.**
D. **Himāra' donkeyo veṭṭēne.**
E. **Aharen kalēge goṇḍi nagan.**
F. **Raṭṭehīge dūni alifān balāne.**
G. **Alifān mīru kāṣi nagā.**
H. **Kalēa' raṭṭehi ehē.**
I. **Dūnīge raṭṭehi aharen ahāne.**
J. **Raṭṭessa' dūni ehē.**
K. **Darifuḷu mīru kāṣi balā.**
L. **Kalē kuḍa darifuḷu vaṭṭāne.**
M. **Dūñña' mīru donkeyo veṭṭēne.**
N. **Hudu donkeyo alifān faṣāne.**
O. **Kalēge darifuḷu kāṣi faṣā.**
P. **Himāra' kuḍa goṇḍi jehē.**
Q. **Darifuḷa' goṇḍi negē.**
R. **Himāra' kuḍa donkeyo belē.**

Assignment 1 (9 marks)

Determine the correct correspondences.

Assignment 2 (4 marks)

Translate into Dhivehi:

(a) The white donkey hits the small banana.

(b) I accidentally ask you.

(c) Your child will accidentally start the coconut's fire.

(d) Your fire will accidentally start my fire.

Assignment 3 (4 marks)

Translate into English:

(a) **Aharena' dūni veṭṭēne.**

(b) **Aharenge raṭṭehīge raṭṭessa' kalēge raṭṭehīge raṭṭehi jehē.**

(c) **Himāru donkeyo balā.**

(d) **Darifuḷu alifān faṣāne.**

Assignment 4 (13 marks)

Explain any patterns and rules you found in the data.

Dhivehi is an Indo-European language of the Indo-Aryan branch spoken in Maldives. It is the official language of Maldives, and has over 500,000 speakers. It is closely related to Hindi and distantly related to English.

– Advay Misra, Vaageesan Surendran
